Profile Summary:

Results-driven **Software Quality Assurance (SQA)** professional with over 2 years of experience in **software development**, now transitioning into QA. Skilled in **building, testing, and optimizing** mobile and web applications to ensure high performance and reliability.

Technical Skills:

Programming Languages: Dart, SQL, Python, Java
Tools and Frameworks: Cypress, Selenium, Postman, Flutter, Firebase, Git, Jira, Confluence, Slack, Notion

Experience:

Absolute Training and Consulting LLC (UAE - Remote) Jan 2025 – Present
Software Quality Assurance Engineer:
- Ensured **99% defect detection** before production deployment through rigorous testing practices.
- Developed and executed **manual and automated test cases** for mobile and web applications.
- Managed **QA documentation** such as test plans, defect reports, and UAT summaries.
- Worked closely with **development and product teams** to prioritize and resolve issues, enhancing product quality and user satisfaction.

Infinix Systems (Pakistan) Mar 2025 – May 2025
Flutter Developer (Part-time):
- Supported the **debugging and optimization** of existing applications to improve overall efficiency.
- **Designed and built engaging frontend components** for Flutter-based mobile projects.
- Worked closely with team members to **enhance functionality and maintain high-quality standards** across applications.

Dexplat Technologies (Pakistan) May 2024- Dec 2024
Flutter Developer:
- **Developed and implemented frontend features** by translating **UI/UX designs** into responsive Flutter code.
- **Integrated backend services and third-party REST APIs** to enhance app functionality and user experience.
- **Debugged and optimized application performance**, ensuring smooth and efficient operation across devices.
- **Managed Git branches, pull requests, and issue tracking**, maintaining a structured version control workflow.
- **Collaborated with cross-functional teams** to plan and develop new features aligned with project requirements.
- Engaged in **direct communication with clients** to gather feedback, clarify requirements, and ensure satisfaction with deliverables.

Sixlogics (Pakistan) Mar 2024 - May 2024
Jr. Flutter Developer:
- **Implemented version control workflows** using **Git** for efficient collaboration and code management.
- **Managed online and offline application states** to ensure seamless user experiences.
- **Integrated backend services and REST APIs** for data synchronization and enhanced functionality.
- **Collaborated with team members** to design, develop, and deploy new features.
- **Maintained direct communication with clients** to gather requirements and provide project updates.

Dexplat Technologies (Pakistan) Aug 2022- June 2023
Associate Software Engineer:
- **Communicated directly with clients** to gather requirements and provide technical support.
- **Debugged issues, optimized app performance,** and ensured **smooth functionality** across devices.
- **Integrated backend services** and **third-party APIs** for enhanced application capabilities.
- **Maintained Git** workflow and **version control** for efficient collaboration and deployment.
- **Developed responsive frontend** features by translating **UI/UX** designs into functional **Flutter** components.

Project:

Cypress E2E Automation
Tools and Tech: Cypress, Javascript, VsCode, E2E Testing
- **Automated critical user flows** such as registration, login, and account deletion using **Cypress**.
- **Reduced manual testing efforts by 60%** through reliable and repeatable automated test execution.
- Ensured **consistent application stability and quality** across multiple testing cycles.

Education:

Comsats University Islamabad, Pakistan
Bachelors of Science in Computer Science 2018 - 2022
